

SAWO FINLAND - CUMULUS SAUNA HEATER (PREMIUM)

Manufactured to an Australian specification, the Cumulus sauna heater is an elegant mixture of stainless steel and Finnish soapstone with scent pockets for essential oils on the top. This wall mounted heater is suitable for small to medium sized rooms (3 - 6 persons) and can be supplied with built in or separate controls. The Cumulus can hold up to 22kg of Peridotite sauna stones. Options include a heat reflector which protects the wall above the heater and directs heat to the lower part of the sauna room or soapstone cubes which can be placed on the heater to emphasise the design.
