

SAWO FINLAND - SCANDIA SAUNA HEATER (PREMIUM)

Manufactured to an Australian specification, the Scandia sauna heater is the most popular residential sauna heater in Australia within the SAWO range. It is suitable for small to medium sized sauna rooms (3-6 persons). It has a robust body and large stone capacity that can hold 18 to 22kg of Peridotite sauna stones. The NBAS model has a reversible built-in control panel that can be placed on either the left or right side of the heater to suit the room layout. An optional heat reflector can be provided which protects the wall above the heater and directs the heat to the lower part of the sauna room.

FEATURES . . .

- Finnish designed and engineered
- Manufactured to an Australian Specification (AS)
- Stainless steel outer cover and internal parts, including rock compartment
- Robust construction
- Reversible built-in temperature and timer control panel in NBAS model
- Available in either built-in (NBAS) or separate Innova control panel (NSAS) models
- Holds up to 22kg of Peridotite sauna stones
- Available in 4.5 kW, 6 kW and 8 kW models

Heater Model	kW	Sauna Room (m3) min - max	Supply Voltage	Fuse Size (Ampere)	Control	Size of Heater (mm) Width/Depth/Height	Stones (kg)
SCA-45NBAS	4.5	3 - 6	230V 1N/ 400V 3N	1 x 20/ 3 x 10	8 + 4h	515 - 290 - 450	18 - 22
